MEXICO

FELIXSTOWE
The United Kingdom

ROTTERDAM
The Netherlands

YANTIAN
China

HONG KONG
China

LAEM CHABANG
Thailand

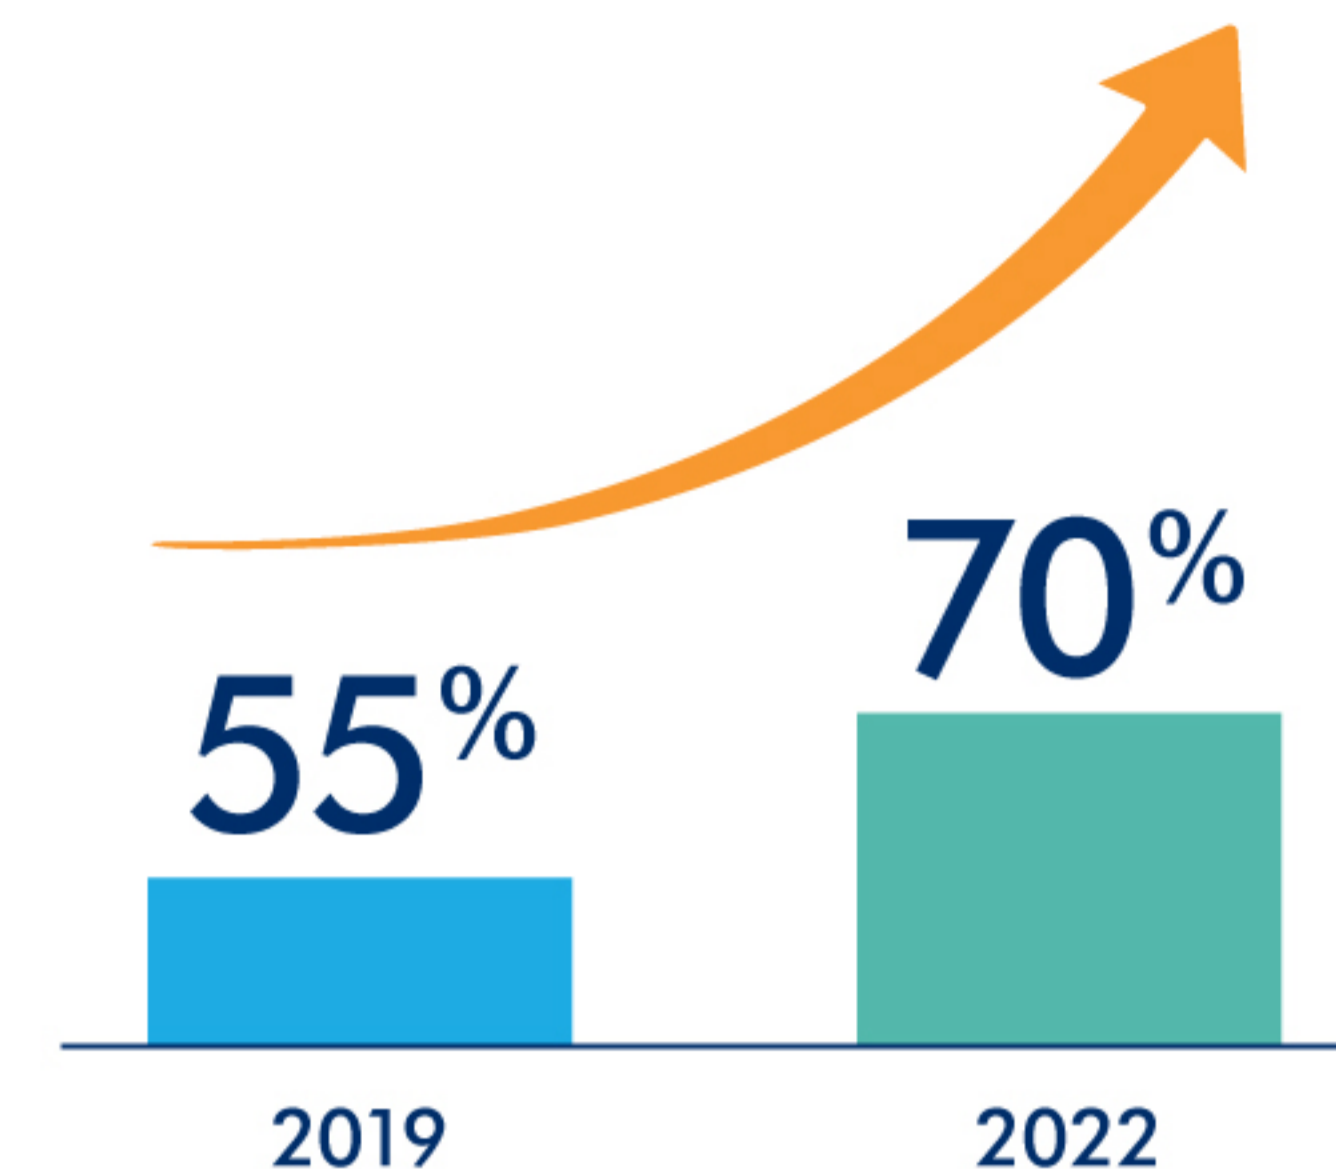

VISION

The world's leading port network.

SMART NETWORK STRATEGY

1. Standardisation of our systems

Streamlining our cross-network operations with nGen, our proprietary terminal operating system. Throughput handled by nGen is expected to increase from 55% in 2019 to 70% in 2022.

2. Automation of our operations

Our experience expedites the adoption of remote control cranes, which improves efficiency and cost savings.

3. Digitising our business

Staying ahead in the industry by investing in blockchain capabilities and AI technology (such as **autonomous trucking**).

4. Organisation

Centralisation of support services in regional operations centre and automation solutions development.
