Circular No. PNI[2020]12

Date: 30 September 2020

Lists of COVID-19 nucleic acid test institutions designated or recognized by the overseas Chinese embassies or consulates in seafarer export countries

Dear Sir/ Madam,

Reference is made to our last circular (Huatai Circular PNI[2020]11 issued in 25 September). According to the Announcement of the Ministry of Transport No. 78/2020, the nucleic acid test for COVID-19 should be conducted at the institutions designated or recognized by the overseas Chinese embassies or consulates. For your easy reference, we hereby provide as attached the lists of the recognized/designated clinics/testing institutions in traditional seafarer export countries.

The lists or notices of most countries could be found on the official website of local Chinese embassies and consulates. While for some other countries, such as the U.S., India, Italy, etc. have no such list posted on the official website of local Chinese embassies and consulates. Please seek assistance from local correspondents as necessary for sake of completing the test.

For the list of countries not mentioned in this circular, please feel free to contact us for details.

Implementation Measures for China-bound Passengers to Obtain Covid-19 Negative Certificates Before Boarding from Bulgaria to China

2020-08-18

To ensure the health and safety of international travel and reduce the risk of cross-border spread of the epidemic, according to the requirements of the announcement issued by the Civil Aviation Administration of China, the General Administration of Customs, and the Ministry of Foreign Affairs, all the China-bound passengers are required to obtain COVID-19 negative certificates before boarding. Implementation Measures are as follows :

1. General Requirements

Starting from August 26, 2020, Chinese and foreign passengers who are to fly from Bulgaria to China or transit through Bulgaria to China must complete COVID-19 nucleic acid tests within five days before boarding and apply for Nucleic acid green health code with "HS" mark (for Chinese citizens) or Health Declaration Forms (for foreign citizens). The airlines will check the Health Codes or Health Declaration Forms when check-in or before boarding, and usually do not check the original nucleic acid test negative certificates.

2. Designated Institutions, Validity and Information of the Certificates

Nucleic acid tests should be taken at the COVID-19 testing institutions designated by the Chinese Embassy in Bulgaria (see Appendix 3 List of **designated institutions**) within 5 days before boarding. All passengers including infants and children need to be tested. The test certificate should be printed in English, clearly indicating the name of the tested person, the type and number of the travel document (usually passport , do not use ID card), nucleic acid test method, test results and issuing date of the certificat. The Embassy will not accept tests for anti-bodies or other type of COVID-19 tests.

3. Method for Chinese Citizens to Apply for Health Codes

(1) All Chinese passengers may download and install the "Epidemic Prevention International Version Health Code" Mini Program through WeChat. (" Q&A to declaration of nucleic acid test certificate for Chinese citizens" https://hr.cs.mfa.gov.cn/help_two/help-two/hs.html)

(2) Chinese citizens should, within 24 hours of obtaining the nucleic acid test negative certificate, declare their personal information and upload the photo of certificate through the Health Code Program. For infants and children, the declaration will be completed by their guardians. After review and approval by the Chinese Embassy in Bulgaria, the relevant persons can obtain **Nucleic acid green health code with "HS" mark** (see Appendix 1).

(3) Passengers should take flights within the validity of the Green health code and cooperate with the airline check before boarding.

4. Method for Foreign Citizens to Apply for Health Declaration Form

(1) Foreign passengers who are to fly to China must download, fill in and sign the **"Health Declaration Form"** (see Appendix 2).

(2) After obtaining the nucleic acid test negative certificate, scan (photographing is not valid) the passenger's passport information page, test negative certificate and the signed Health Declaration Form , and send the scanned copies to the designated email address of the Chinese Embassy in Bulgaria: consulate_bgr@mfa.gov.cn .

(3) After review and approval, the Chinese Embassy in Bulgaria will send via email a scanned copy of the stamped Health Declaration Form, which must be printed out by the applicant and brought to the airport. Please board the plane within the validity period of the Health Declaration Form and cooperate with the airline check before boarding.

5. Related Tips

(1) Passengers planning to take flights to China are advised to read this notice carefully. If you cannot acquire the nucleic acid test negative certificate in time and fail to obtain a green Health Code with the "HS" mark or a valid Health Declaration Form before boarding, it means that you are temporarily not eligible for the flight and you will need to rearrange or adjust your itinerary.

(2) To transfer to China via countries where China-bound passengers are required to obtain COVID-19 negative certificates before boarding (see list https://hr.cs.mfa.gov.cn/help_two/help_two/gj.html), passengers' green Health Codes with the "HS" mark or Health Declaration Forms will also be checked. Please make sure that the Health Code or Health Declaration Form is within validity at the time of transfer, otherwise the transfer may be blocked.

(3) If you are transferring to China from a third country via Bulgaria, please make sure to complete the above-mentioned verification procedures at the local Chinese embassy or consulate before departure.

(4) The uploaded nucleic acid test negative certificate must be complete, clear and must not be altered. If the upload quality of the certificate is poor or if the certificate is altered, it will affect the review process by the Embassy. Any losses will be borne by the applicants themselves.

(5) Passengers who provide false certificates and information shall bear all corresponding legal liabilities. If an airline has doubts about the green Health Code or Health Declaration Form of a passenger, it may require an on-site inspection of the original nucleic acid test certificate. Therefore you are advised to bring the test certificate on paper with you at all time.

(6) The Health Declaration Form is for boarding inspection only and is NOT an entry document. Please make sure that you have a valid Chinese visa or you are eligible to enter China without a visa.

(7) The Chinese Embassy in Bulgaria reserves the right of final interpretation for the above regulations.

Mitteilung über die Einführung der Nukleinsäure-Test-Pflicht für die nach China reisenden Fluggäste vor dem Reiseantritt

2020/08/22

Aufgrund der gemeinsamen Verordnung vom Zentralamt für Zivilluftfahrt, Zollangelegenheit und Außenministerium der Volksrepublik China vom 20. Juli und deren Genehmigung sind die chinesischen Auslandsvertretungen in Deutschland beauftragt, die Einführung der Corona-Test-Pflicht ab 30. August 2020 für alle von und über Deutschland nach China reisenden Fluggäste vor Reiseantritt bekanntzumachen und durchzuführen. Alle China-Reisenden sind höflichst gebeten, Folgendes zu beachten:

I. Fluggäste, die von Frankfurt a.M. aus mit Direktflug oder Charterflug nach China reisen, können sich im Testzentrum Centogene am Flughafen Frankfurt a.M. testen lassen und dürfen danach direkt gegen Vorlage der negativen Testergebnisse bei der Fluggesellschaft an Bord gehen.

Falls die Corona-Tests aber an anderen deutschen Teststellen durchgeführt werden, müssen diese Tests innerhalb von 5 Kalendertagen vor dem Abflug nach China stattfinden und deren negativen Testergebnisse von der jeweiligen chinesischen Auslandsvertretung online zertifiziert werden, indem die Fluggäste ihre Testergebnisse mit Reisepasskopien und ausgefüllten und unterzeichneten Gesundheitserklärungen mindestens 24 Stunden vor dem Abflug, auch am Wochenende, per E-mail an chinesische Auslandsvertretungen (je nach dem Ort der Teststelle an Botschaft oder ein der 4 Generalkonsulate) schicken. Nach einem schnellen Überprüfungsverfahren bekommen die Fluggäste die Gesundheitserklärungen gestempelt zurück, ausdrucken, zum Flughafen mitnehmen und der Fluggesellschaft vor Einsteigen vorzeigen.

II. Alle Fluggäste, die von Hamburg über Frankfurt a.M. nach China fliegen, können ihre Corona-Tests im Testzentrum Centogene am Flughafen Hamburg machen lassen. Gegen Vorlage dieser Testergebnisse dürfen die Fluggäste am Flughafen Frankfurt a.M. an Bord gehen.

III. Alle Fluggäste, die von Deutschland aus, aber über ein Drittland nach China fliegen, unterliegen derselben Testpflicht und demselben Verfahren wie oben beschrieben, und müssen das gültige Dokument am Transitflughafen vor dem Flug nach China vorzeigen.

IV. Für Fluggäste, die von anderen Staaten über Frankfurt a.M. nach China fliegen, müssen die Corona-Tests in dem ersten Abflugland stattfinden und von chinesischen Auslandsvertretungen im Abflugland zertifiziert werden. Nur gegen Vorlage dieser Zertifikate dürfen die Fluggäste am Flughafen Frankfurt a.M. den Flug nach China fortsetzen.

V. Es ist unbedingt zu beachten, dass die Testergebnisse erst dann gültig sind, wenn die Tests innerhalb von fünf Kalendertagen vor dem Abflug nach China durchgeführt sind.

Notification on Nucleic Acid Test Certificate Required for Chinese and Foreign Passengers bound for China from Indonesia

2020/08/20

To ensure healthy and safe international travels and mitigate the risks of cross-border spreading of Covid-19, in accordance with the public announcement by the Civil Aviation Administration, General Administration of Customs and Ministry of Foreign Affairs of China on 20th July 2020, the Chinese Embassy in Jakarta hereby notifies the adoption of the policy in Indonesia that requires Chinese and foreign passengers bound for China to carry a certificate of negative Covid-19 nucleic acid test result. Specifics of the implementation are as follows:

1. General Requirements

Starting from 26th August 2020, Chinese and foreign passengers taking flight to China from Indonesia, including passengers who transit in Indonesia then take flight to China, are required to complete COVID-19 nucleic acid test within 3 days prior to boarding and apply for green health code with "HS" symbol or Health Declaration Form by presenting their negative results of nucleic acid tests. Chinese and foreign airlines will verify before check-in.

2. Time of nucleic acid tests and testing facilities

Nucleic acid testing should be completed within 3 days before boarding and be taken at facilities designated by the Chinese Embassy and Consulates-General in Indonesia. Please click [this link](#) to access list of facilities.

3. How to apply for the Health Code (For Chinese passengers only)

Once obtaining the negative test results, Chinese passengers are required to take photograph of the report and upload their COVID-19 negative certificates to the WeChat mini program COVID-19 Prevention Health Code International Version within 24 hours. Upon review and approval by the Chinese Embassy and Consulates-General, the passengers will receive a green health code with "HS" symbol. For reference, please click [this link](#) to access "Chinese Nationals Nucleic Acid Test Result Certificate Report Frequently Asked Questions and Answers". Please make sure to board the flight within the validity period of the Health Code and cooperate with the staff of the airlines for checking the said Code.

4. How to apply for the Health Declaration Form (For foreign passengers only)

Foreign passengers, after obtaining negative test results, should send the scanned copies of the page of personal information of their valid passports, their negative result certificates of COVID-19 nucleic acid tests and the duly signed Health Declaration Form (See attachment) to the following e-mail addresses of the Chinese Embassy or Consulates General in Indonesia. After due verification, the Chinese Embassy or Consulates General in Indonesia will send the scanned copy of the Health Declaration Form with official stamp back to the applicant. The Foreign passengers bound for China should then print out the Health Declaration Forms and bring it to the airport. Please make sure to board the flight within the validity period of the Health Declaration Form and cooperate with the staff of the airlines for checking the said Letter.

Consulate-General of the People's Republic of China in Denpasar email address:

chinaconsul_dps_id@mfa.gov.cn

5. Others

1) All passengers intending to take flights bound for China shall read this notification carefully. If you are unable to complete the nucleic acid test and obtain a negative result certificate in time, or to obtain a green health code with the "HS" symbol or the Health Declaration Form, it means you temporarily unfit to take flights. Please reschedule your itinerary accordingly.

2) Chinese and foreign passengers who plan to transit in countries where nucleic acid test certificate are required before boarding (please refer to [this link](#) for the country list), will also be required to have their green Health Code with "HS" Symbols or the Health Declaration Form checked by the relevant airlines during transit. Please make ready your "HS" symbol or Health Declaration Form before boarding, and ensure it is valid during transit, so as to avoid being denial boarding and hence be stranded in the airport.

6. Reminders

1) Passengers bound for China when collecting the negative covid-19 nucleic acid test certificate, shall carefully check and confirm all personal information is correct, otherwise may fail to pass verification due to information error. The said negative covid-19 nucleic acid test certificate must be stamped by the testing facility or signed by authorized personnel.

2) Validity of the nucleic acid test starts from the issuing date of the negative result certificate. Considering the nucleic acid test needs time to complete, for passengers to take flights bound for China, please arrange your schedule rationally by taking tests in advance and avoid uploading the negative covid-19 nucleic acid test result certificates within 24 hours prior to boarding which may cause delay in your travel.

Avviso sul certificato di negatività del test (tampone) acido nucleico Covid-19 richiesto per l'imbarco del volo per la Cina

驻意大利使馆

2020/08/21

Ai sensi delle disposizioni rese pubbliche dall'Amministrazione dell'Aviazione Civile Cinese, dall'Amministrazione Generale delle Dogane Cinese e dal Ministero degli Affari Esteri Cinese, a partire dal 28 agosto 2020, i passeggeri stranieri che si recano in Cina per via di volo da Italia devono portare il certificato di negatività del test acido nucleico al Covid-19 e la dichiarazione di buone salute, mostrare al momento dell'imbarco del volo che parte per la Cina:

1. A partire dal 28 agosto 2020, il passeggero che si reca in Cina da Italia con il volo diretto o indiretto, deve sottoporsi al test dell'acido nucleico (tampone) per COVID-19 entro 3 giorni prima dell'imbarco. L'Ambasciata e Consolati Generali della Cina in Italia non designano strutture sanitarie specifiche per effettuare il test. Il passeggero può scegliere qualsiasi struttura sanitaria accreditata e autorizzata dall'autorità italiana per effettuare il test.

2. Il passeggero deve compilare e firmare la dichiarazione della buona salute (vedere l'allegato) e inviare la copia della dichiarazione, insieme al certificato del test dell'acido nucleico (con esito negativo) e una fotocopia della bio-pagina del passaporto al Centro Visti Cinesi dove è stato richiesto il visto, e il Centro Visti Cinesi trasmette la documentazione della richiesta all'Ambasciata o Consolati Generali della Cina in Italia per validare la dichiarazione della salute in base al certificato di negatività. Si prega di prestare attenzione alle indicazioni del Centro Visti Cinesi nel momento della richiesta di visto. Per accelerare il processo, si utilizza "Dichiarazione Salute + nome cognome + data di partenza" come oggetto della tua email, ad es. "Dichiarazione Salute + Marco Leonardo + 12 agosto 2020". Gli indirizzi di posta elettronica dei Centri Visti Cinesi sono:

Centro Visti Cinesi a Roma: romacentre@visaforchina.org

Website: https://bio.visaforchina.org/ROM2_IT/

Centro Visti Cinesi a Milano: milacentre@visaforchina.org

Website: https://bio.visaforchina.org/MIL2_IT/

3. La Dichiarazione della Salute ha validità di 3 giorni a partire dalla data del rilascio del Certificato di Test Acido Nucleico (con esito negativo), sarà rimandata con il timbro dell'Ambasciata o dei Consolati Generali della Cina in Italia al passeggero tramite il Centro Visti Cinesi via posta elettronica.

4. Il passeggero deve presentare la dichiarazione della salute validata entro validità nel momento di check-in o prima dell'imbarco al volo e collaborare con il personale della compagnia aerea per il controllo. Si prega di notare che il passeggero con la dichiarazione della salute scaduta non sarà autorizzato a imbarcarsi al volo.

5. Si consiglia al passeggero di portare con sé il Certificato di Test Acido Nucleico (con esito negativo) in caso di necessità di ulteriore controllo.

6. La dichiarazione della salute è uno dei requisiti per poter prendere il volo per la Cina, non è un documento alternativo al visto.

Notice on Airline Boarding Requirement for Certificate of Negative Result of Nucleic Acid Tests for Covid-19

2020/09/06

In accordance with the announcement of the Civil Aviation Administration of China, the General Administration of Customs of China and the Ministry of Foreign Affairs dated 20 July 2020 and relevant regulations, all foreign travelers who are to fly from India to China will be required to take a nucleic acid test for COVID-19 and apply for certified Health Declaration Form. The following procedures are for your reference:

1. Starting from 0:00, 14 September 2020, passengers who are to fly to China from India by **regular flights**, directly or indirectly, will be required to take a nucleic acid test for COVID-19 within 72 hours (3 days) before boarding. At this stage, the Chinese Embassy or Consulates In India do not designate specific institutions to carry out the test. Passengers can choose any hospital or lab which is listed in the website of the Indian Council of Medical Research (hereinafter referred to as ICMR) to take the test.

2. The passengers shall file application with the Chinese Embassy or Consulates nearest to their location, fill in and sign the Health Declaration Form (please see the Appendix) and are required to send a scanned copy of the signed Form, together with the Nucleic Acid Test Certificate (with negative result), and a photocopy of the bio-page of the passport to one of the e-mail boxes of the Chinese Embassy or Consulates. Please be kindly reminded that repeated application or submission of application to multiple e-mail boxes will run the risk of getting blacklisted by the e-mail system and thus rejected.

Embassy E-mail: healthdeclarationformindia@gmail.com

Mumbai Consulate E-mail: consulate_mumbai@mfa.gov.cn

Kolkata Consulate E-mail: consulate_kkt@mfa.gov.cn

To speed up the process, please use "HS+Passenger name+Date of Departure(YYYY/MM/DD)+Cell Phone Number" as subject line of your email, e.g. "HS+Amit Kumar+20200914+91-12345 67890".

3. Certified Health Declaration Form(with the official seal of the Chinese Embassy or Consulate in Mumbai or Kolkata) with a validity period of 72 hours (3 days) starting from the date of issue of the Nucleic Acid Test Certificate (with negative result) shall be issued by the Chinese Embassy or Consulates and sent back to the passengers by email. Please be noted that it shall take at least 1 working day for verification.

4. Passengers shall be required to present the print-out certified Health Declaration Form within the validity period during check-in or before boarding the flight and cooperate with airlines staff during the inspection. Please be noted that passengers with expired Health Declaration Form will not be allowed to board the plane and will be required to take nucleic acid tests and apply for the Health Declaration Form again.

5. Passengers are advised to bring the Nucleic Acid Test Certificates (with negative result) to the airport in case of the need for further inspection.

6. For passengers departing from India and ultimately bound for China who transfer via other countries, the above-mentioned procedures for checking their Health Declaration Forms should also be followed. Otherwise, they may not be allowed to board the connecting flight.

7. It is requested that passengers inbound China from any airports in India shall follow relative laws and regulations and provide genuine and effective Nucleic Acid Test Certificates. Those who provide fake certificates shall take legal responsibility accordingly.

8. Please also be noted that a certified Health Declaration Form is not a prerequisite for a Chinese visa, and vice versa.

9. For **irregular commercial flights, charter flights or special flights** from India to China, double nucleic acid tests of Covid-19, in the labs authorized by the ICMR, the first within 120 hours(5 days) before boarding and the second within 36 hours before boarding. Only the negative report of the first nucleic acid test shall be sent together with personally signed Health Declaration Form through the following e-mail addresses to the Chinese Embassy or Consulates for verification and stamping. The passengers shall file application with the Chinese Embassy or Consulates nearest to their location.

The negative report of the second nucleic acid test within 36 hours before boarding to China needn't be sent to the Embassy or Consulates, and can be printed out together with the first negative report as well as the stamped Health Declaration Form by the passengers for the flight check-in and China Customs procedures, except otherwise required by the competent departments of the Chinese Government as individual cases.

List of Designated COVID-19 Test Institutions - Netherlands

Notice about Requirement of COVID-19 Negative Certificates for China-bound Passengers from the Netherlands Starting from 7th September 2020

2020/08/29

To ensure the health and safety of international travel and reduce the risk of cross-border spread of the epidemic, **the Chinese Embassy in the Netherlands hereby announces that, all China-bound passengers from the Netherlands, including transfer passengers and infants, are required to obtain COVID-19 PCR negative certificates before boarding, starting from 7th September (Monday) 2020.** The implementation measures for passengers without Chinese nationality are as follows:

I China-bound passengers who are going to **fly directly from the Netherlands or from the Netherlands via a third country:**

Passengers are required to finish PCR tests for COVID-19 **within 3 days before boarding at institutions recognized by the Chinese Embassy in the Netherlands (see attachment 1)** and **apply for Health Declaration Forms** by submitting COVID-19 PCR negative certificates. They should send a scanned copy of ① **the information page of the passport** ② **COVID-19 PCR negative certificate** ③ **Health Declaration Form signed by the applicant (see attachment 2) (Guardians should sign for infants who cannot sign)** and ④ **the information of airline ticket** to healthdeclaration.nl@gmail.com. After approval, the Chinese Embassy will issue the Health Declaration Form with the Embassy stamp and validity period and send it to the applicant through email. The applicant should print out the Form and take it to the airport. Please pay attention to the validity period of the Health Declaration Form and cooperate with the airline for checking. Transfer passengers should make sure that the Health Declaration Forms are still valid at the date of transfer. **Please be sure to note the following:**

(1) To finish PCR tests for COVID-19 within 3 days before boarding means that **the issuance date of the certificates should be within 3 days before boarding (excluding the boarding date)**. If there is no issuance date on the certificates, the Chinese Embassy will consider the latest date on the certificates as the issuance date. For example, Mr. A will fly from the Netherlands to China on 7th September, the issuance date showed on his certificate should be 4th, 5th or 6th September. However, if he has the sample taken on 3rd September and

receives the certificate which clearly states that the issuance date is 4th September, he can take the flight on 7th September.

(2) Applicants who are going to fly on weekdays should submit applications at least 24 hours before boarding. Applicants who are going to fly on weekends should submit applications no later than 16:00 on Fridays of the same week. For example, Mr. A will fly from the Netherlands to China at 14:30 on 10 September (Thursday). He should submit his application no later than 14:30 on 9 September (Wednesday). Mr. B will fly from the Netherlands to China at 14:30 on 13 September (Sunday). He should submit his application no later than 16:00 on 11 September (Friday).

(3) The COVID-19 PCR negative certificates must be issued by institutions recognized by the Chinese Embassy (see attachment 1) and signed by the doctor, otherwise the applications will be rejected.

(4) The COVID-19 PCR negative certificates are not boarding permits. Passengers who can only show their test certificates and fail to show valid Health Declaration Forms will be denied boarding.

II China-bound passengers who are going to fly from a third country via the Netherlands

The passengers are required to finish PCR tests for COVID-19 in the country of departure and contact the Chinese embassy or consulate in that country to apply for Health Declaration Forms. **Please be sure to note the following:**

(1) The Chinese Embassy in the Netherlands does not accept applications for the Health Declaration Forms submitted by passengers departing from a third country. For example, Mr. A will fly from the US via the Netherlands to China. He must finish the PCR test for COVID-19 in the US and contact the Chinese Embassy or Consulates in the US for the Health Declaration Form.

(2) The COVID-19 PCR negative certificates are not boarding permits. Passengers who can only show their test certificates and fail to show valid Health Declaration Forms will be denied boarding in the Netherlands.

Updated Notification on Requiring China-bound Passengers to Obtain COVID-19 Negative Certificates before Boarding

2020/08/28

In accordance with the joint announcement of the Civil Aviation Administration, the General Administration of Customs and the Ministry of Foreign Affairs of China, and the updated requirements, starting from 5 September 2020, Chinese and foreign travelers who are to fly from the Philippines to China are required to take nucleic acid tests for COVID-19 within 3 days before boarding and only those who test negative will be allowed to board the plane.

The Notification released on 11 August 2020 regarding the 5-day requirement (Please see <http://ph.chineseembassy.org/eng/lsw/t1805442.htm>) shall remain effective until 4 September 2020.

The procedures for China-bound foreign passengers to obtain the certified Health Declaration Form remain the same as the following:

1. All foreign passengers inbound China by flights from Philippine airports shall be required to take nucleic acid tests for COVID-19 conducted by designated institutions (Please see <http://ph.china-embassy.org/chn/lsw/t1802803.htm>) and get Nucleic Acid Test Certificates with negative result within 3 days prior to boarding flights.

2. Passengers shall fill in and sign the Health Declaration Form (please download from the website: <http://ph.china-embassy.org/chn/lsw/t1802803.htm>) and are required to send scanned copy of the signed Forms, together with the Nucleic Acid Test Certificates and the photocopies of the front-page of passports to the Chinese Embassy or Consulates (according to the location of the testing institutions) by email:

Chinese Embassy : phlhsjc@outlook.com

Consulate-General in Cebu: consulatecebu@gmail.com

Consulate in Laoag: chineseconsulatelaoag@gmail.com

Consulate-General in Davao: consulategeneralchina@gmail.com

3. Certified Health Declaration Forms with a validity period of 3 days (starting from the issuing date of the Nucleic Acid Test Certificates from the designated institutions) shall be issued by the Chinese Embassy or the Consulates and sent back to the applicants by email. Please be noted that it shall take at least 1 working day for the verification by the Chinese Embassy or the Consulates.

4. Passengers shall be required to present the print-out certified Health Declaration Form within the validity period during check-in or before boarding flight and cooperate with airlines for further checking. Please be noted that passengers with expired Health Declaration Forms won't be allowed to board and are required to conduct new Nucleic Acid Tests as well as applying for new Health Declaration Forms.

5. All passengers inbound China from Philippine airports shall follow relative laws and regulations and provide genuine and effective Nucleic Acid Test Certificates. Passengers who provide false certificates or information shall bear corresponding legal liabilities.

6. For foreign passengers ultimately bound for China who transfer via other countries that require valid Health Declaration Forms for boarding (please see https://hr.cs.mfa.gov.cn/help_two/help-two/gj.html, select ENGLISH version on top right of the page) will also be required to show Health Declaration Forms during transfer. Please make sure that the Forms will be still valid when boarding the connecting flights.

7. Please be noted that a certified Health Declaration Form is NOT a Chinese visa. For visa service, please refer to the Announcement of the Ministry of Foreign Affairs of the People's Republic of China and National Immigration Administration on the Temporary Suspension of Entry by Foreign Nationals Holding Valid Chinese Visas or Residence Permits on March 26, 2020. 关于在波兰实施赴华航班乘客凭新冠病毒核酸检测阴性证明登机的通知

2020/09/02

为确保国际旅行安全，降低疫情跨境传播风险，根据7月20日中国民航局、海关总署、外交部发布的相关公告要求，中国驻波兰大使馆现就波兰实施赴华航班中、外籍乘客凭新冠病毒核酸检测阴性证明登机的具体办法通知如下：

一、总体要求

自**华沙时间2020年9月8日（含当日）起**，波兰正式开始实行凭新冠病毒核酸检测阴性证明登机措施。

1、自波兰出发，搭乘直飞航班赴华的乘客，凭登机前**3日（72小时）内**波内务部医院或波国家公共卫生研究院出具的有效核酸检测阴性证明直接登机。乘客也可凭驻波兰使馆指定的其他检测机构在登机前3日（72小时）内出具的核酸检测阴性证明，向驻波兰使领馆申领绿色核酸码（适用于中国公民）或健康状况声明书（适用于外国公民），并凭绿色核酸码或有效健康声明书登机。

2、自波兰出发，经第三国或地区中转赴华，及从其他国家经波兰中转乘机赴华的中、外籍乘客，仍需凭绿色核酸码或有效健康状况声明书登机。航空公司在乘客办理值机和登机前将查验乘客核酸码或健康状况声明书。建议赴华乘客随身携带核酸检测阴性证明备查。

二、检测时间及检测机构

核酸检测应在登机前**3日（72小时）内**完成，乘客可根据具体情况选择检测机构和检测时间（核酸检测报告有效期起始点是核酸检测证明的出具日期）。

1、在波搭乘直飞或经第三国（地区）中转航班赴华的乘客，应在驻波使馆指定和认可的检测机构进行核酸检测。鉴于部分波检测机构须提前预约，建议乘客根据自身航班情况提前联系相关检测机构进行预约。

2、从其他国家经波兰中转赴华的乘客，应按中国驻当地使领馆要求，提前在始发地国家进行核酸检测，凭中国驻当地使领馆审核通过的绿色核酸码或有效健康状况声明书登机。

三、搭乘波兰直飞航班赴华，凭波内务部医院或波国家公共卫生研究院核酸检测阴性证明登机办法

自波兰出发，搭乘直飞航班赴华的中、外籍乘客，可凭登机前**3日（72小时）内**波内务部医院或波国家公共卫生研究院出具的有效核酸检测阴性证明直接登机，无需再向驻波使领馆申领绿色核酸码或健康状况声明书。请携带波内务部医院或波国家公共卫生研究院出具的有效核酸检测阴性

证明原件，乘机时原件须交航空公司查验留存，建议乘客自留复印件。

四、中国公民申领绿色核酸码具体办法

中国公民如需申领绿色核酸码，应在获得核酸检测阴性证明后**12小时内**，通过防疫健康码国际版微信小程序（可扫描下方二维码），申报个人情况并拍照上传核酸检测阴性证明（上传照片务必清晰、完整）。经中国驻波兰使馆复核通过后，当事人可获得带“HS”标识的绿色核酸码（样式见下方）。如有需要，[请点击查看中国公民核酸检测阴性证明申报常见问题解答](#)。请注意在核酸码有效期内乘机，并在登机前配合航空公司查验。从其他国家经波兰转机回国的中国公民，应按照中国驻当地使领馆要求，提前在始发地国家完成核酸检测，凭中国驻当地国家使领馆审核通过的绿色核酸码登机，并在登机前配合航空公司查验。

防疫健康码国际版微信小程序二维码：

“HS”标识的绿色核酸码样式：

- 绿色：**您已具备乘机条件，请注意核酸码有效期，在有效期内可乘机。请在乘机时配合航空公司查验。
- 红色：**您的核酸检测证明未通过核验，可能因为：核酸检测结果为阳性、核酸检测证明出具日期距乘机日期已超过5天、核酸检测机构不属于指定或认可机构，或检测证明存在其他问题等。
- 灰色：**您的核酸码已失效。请于乘机前5天内重新进行核酸检测并提交阴性证明。
- 黄色：**您已提交核酸检测证明，请耐心等待核验结果。

五、外国公民申领健康状况声明书具体办法

外国公民如需申领健康状况声明书，应在获得核酸检测阴性证明后**12小时内**，将本人的①有效护照资料页；②核酸检测阴性证明；③申请人填写完整并签名的健康状况声明书（样式见附件）扫描后，通过电子邮件发送至中国驻波兰使馆指定邮箱 consulate@chinaembassy.org.pl（邮件主题为“HS+姓名+航班出发日期”）；在驻革但斯克总领馆辖区内四个省（pomorskie, zachodniopomorskie, kujawsko-pomorskie, warmińsko-mazurskie）长居的外国公民，请发送至中国驻革但斯克总领馆指定邮箱：consulate@consulate.gda.pl（邮件主题为“HS+姓名+航班出发日

期”)。中国驻波兰使馆或驻革但斯克总领馆审核通过后,以电子邮件方式将加盖使馆印章的健康状况说明书扫描件发还申请人,请申请人自行打印并携带至机场。请注意在健康状况说明书有效期内乘机,并在登机前配合航空公司查验。外国公民如从其他国家经波兰转机赴华,应按照中国驻当地使领馆要求,提前在始发地国家完成核酸检测,凭中国驻当地使领馆出具的有效健康状况说明书登机,并在登机前配合航空公司查验。

六、重要提醒

(一) 请拟搭乘赴华航班乘客认真阅知本通知。如登机时无法按要求提供波内务部医院或波国家公共卫生研究院出具的有效核酸检测阴性证明,或提供带“HS”标识的绿色核酸码或有效的健康状况说明书,则说明您不符合登机条件,请重新调整行程。

(二) 带“HS”标识的绿色核酸码和健康状况说明书的有效期起始点是核酸检测阴性证明的出具日期。鉴于核酸检测阴性证明有效期较短,请申请人尽早上传和发送有关证明及材料,预留足够的审核时间。如因个人申请时间过晚或材料不符合要求造成的延误或其他损失,由申请人自行承担。

(三) 请按要求在中国驻波使馆或驻革但斯克总领馆指定和认可的检测机构进行核酸检测,避免因检测机构系非指定检测机构影响行程。伪造核酸检测阴性证明或健康状况说明书属违法行为,将承担相关法律责任。

(四) 如遇涉核酸检测紧急情况,可发送邮件或拨打以下电话寻求协助:

Aviso sobre ajustes de los establecimientos reconocidos por la Embajada de China en España para realizar pruebas de ácido nucleico para el COVID-19

24/09/2020

De acuerdo con las aprobaciones de los Códigos QR con logotipo HS y de las declaraciones de salud, la Embajada de China en España implementará los siguientes ajustes de los establecimientos reconocidos para realizar pruebas de ácido nucleico para el COVID-19.

1. La Embajada de China en España reconocerá los certificados emitidos por los hospitales generales y centros de diagnóstico de España. Puedes acceder al sitio web oficial del Ministerio de Sanidad, Consumo y Bienestar Social para verificar las calificaciones del establecimiento que has elegido para la prueba. Accede al <http://regcess.msbs.es/regcessWeb/inicioBuscarCentrosAction.do>, en 'clases de centro' elige C11-Hospital General o C256-Centro de Diagnóstico y encuentra los detalles del establecimiento.

2. Desde el 29 de septiembre, esta Embajada dejará de aceptar los certificados emitidos por el LABORATORIO CENTRAL MADRID que pertenecen a UNITED LABORATORIES MADRID, S.A.(UNILABS). Los certificados emitidos por otros laboratorios de UNILABS no serán afectados.

Seguiremos atentamente a los certificados emitidos por los establecimientos reconocidos para realizar las pruebas de ácido nucleico, que serían ajustados oportunamente por la Embajada.

Notice on Mandatory COVID-19 Negative Certificates for China-bound Passengers Before Boarding

2020/09/04

According to the announcement of the Civil Aviation Administration, the General Administration of Customs and the Ministry of Foreign Affairs of China on July 20 and the latest guidelines of the Chinese government, all passengers who are to fly directly from United States to China will be required to provide a certificate of negative Covid-19 nucleic acid test result issued within three days before boarding, starting from September 15, 2020. The details are as follows:

1. Foreign citizens who are to take a direct flight from the United States to China should take Covid-19 nucleic acid tests and provide a certificate of negative test result issued within three days before boarding. For instance, if a passenger is to board on October 10, the issuance date of the certificate should be between October 7 and 10.

The negative certificate needs to be emailed or submitted to the Chinese Embassy or Consulates General in the U.S. according to the consular jurisdiction that the testing facility belongs to ([map, consular jurisdiction of the Consulate-General in Houston](#)) once it is issued (no later than 24 hours before boarding in the U.S.), along with the scanned copy of the valid passport information page and the signed health declaration (see the attachment below the notice).

(temporarily taken over the work of the Consulate-General in Houston)

Consulate General in New York: cnnyhdf@gmail.com

Consulate General in San Francisco: health.sfconsulate@gmail.com

Consulate General in Los Angeles: Please [click here](#) to submit online

Consulate General in Chicago: 12308chicago@gmail.com

It usually takes one business day to process the health declaration. If the certificate submitted needs to be verified with the issuing agency, the processing time will be extended accordingly. After approval, the scanned copy of the health declaration will be emailed back to the passenger and needs to be printed out and carried throughout the journey. The health declaration is valid through the third day after the issuance date of the nucleic acid test certificate. Passengers are advised to travel before it expires and be prepared for checking by the airlines before boarding.

2. Foreign citizens who are to fly from the U.S. to China and transit in a third country or region shall follow the requirements stated in the [notice on August 12](#). However, starting from September 15, the Covid-19 nucleic acid tests should be taken within THREE days before boarding in the transit country. For instance, if a passenger is to board on October 10, the issuance date of the negative certificate should be between October 7 and 10.

3. Foreign citizens who are to transit in the U.S. before flying to China shall present to the airlines a Health Declaration Form, which shall be verified by the Chinese Embassy or Consulates in the country of departure.

4. Foreign citizens are advised to confirm with an eligible institution or hospital on the issuing date of the negative report before scheduling a trip. The Chinese Embassy and Consulates General have not designated specific institutions to perform the nucleic acid test. Test result certificates issued by eligible medical or testing institutions are currently accepted. At present, only Covid-19 nucleic acid RT-PCR Test negative report is accepted, antibody test or serology test result is not accepted.

Türkiye'den Çin'e uçuş gerçekleştirecek olan yolcuların negatif olarak sonuçlanan Covid-19 nükleik asit testi belgesi ile uçağa alınmalarına dair uygulama detayları

2020/08/05

Uluslararası seyahatlerde sağlık güvenliğini garanti altına almak, salgının yayılma riskini aza indirmek amacıyla Çin Halk Cumhuriyeti Sivil Havacılık Kurumu, Çin Halk Cumhuriyeti Gümrük İdaresi ve Çin Halk Cumhuriyeti Dışişleri Bakanlığı'nın 20 Temmuz 2020 tarihindeki tebliğlerine istinaden, Türkiye'den Çin'e gerçekleştirilecek uçuşlara yönelik Çin ve yabancı uyruklu yolcuların negatif sonuçlu Covid-19 nükleik asit testi belgesi ile uçağa alınmalarına dair uygulama detayları aşağıda bildirilmektedir:

1. Genel şartlar

11 Ağustos 2020 tarihi itibarıyla Türkiye'den gerçekleştirilecek ve Türkiye üzerinden aktarma yaparak Çin'e gidecek olan Çin ve yabancı uyruklu yolcular uçuşlarını gerçekleştirmeden önce beş gün içerisinde Covid-19 nükleik asit testi yaptırmalı ve negatif olarak sonuçlanan nükleik asit test belgesi ile "HS" logolu yeşil sağlık kodu ya da sağlık durumu beyannamesi için başvuruda bulunmalıdırlar. Hava yolu şirketi yolcular uçağa alınmadan önce ilgili belgelerin kontrolünü sağlamalıdır.

2. Test zamanı ve test kurum/kuruluşları

Yolcular uçuş gerçekleştirmeden önce beş gün içerisinde Türkiye'de bulunan Çin Büyükelçiliği ya da Başkonsoloslğu tarafından belirlenen ya da onaylanan test kurum/kuruluşlarında (ek1 listesine bakınız) nükleik asit testi yaptırmalıdırlar.

3. Çin vatandaşları için sağlık kodu başvurma yöntemi

Çin vatandaşları negatif olarak sonuçlanan nükleik asit testi belgesini aldıktan sonra 24 saat içinde salgın önleme sağlık kodu uluslararası versiyonlu wechat uygulaması kullanarak şahsi sağlık durumu bildirisinde bulunmalı ve negatif olarak sonuçlanan nükleik asit testi belgesinin fotoğrafını çekerek söz konusu uygulamaya yüklemelidirler. Çin Büyükelçiliği ya da Başkonsoloslğu tarafından kontrol edilmesi akabinde şahıs 'HS' logolu yeşil sağlık kodu alır. Gereklik durumunda parantez içindeki link üzerinden (https://hr.cs.mfa.gov.cn/help_two/help-two/hs.html) Çin vatandaşları ile ilgili nükleik asit testi belgesi beyan edilmesinde sık sık karşılaşılan sorulara yönelik cevaplar bölümünü inceleyiniz. Sağlık kodunun geçerlilik süresi dahilinde uçuş yapmaya dikkat edilmeli ve uçuş gerçekleştirmeden önce hava yolu tarafından gerçekleştirilecek kontrol işlemlerine uyum sağlanmalıdır.

4. Yabancı uyruklu şahıslar için sağlık durumu beyannamesine yönelik uygulama detayları

Yabancı uyruklu şahıslar negatif olarak sonuçlanan nükleik asit test belgesini aldıktan sonra geçerli pasaportun fotoğraflı

sayfası, negatif olarak sonuçlanan nükleik asit test belgesi ve başvuru sahibi tarafından imzalanan sağlık durumu beyannamesini (örneği için ek2'ye bakınız) tarayarak Çin Büyükelçiliği ya da Başkonsolosluğu'na ait aşağıdaki mail adresine göndermelidirler. Gönderilen içeriğin Çin Büyükelçiliği ya da Başkonsolosluğu tarafından kontrol edilerek onaylanmasının ardından sağlık durumu beyannamesi tarama suretiyle başvuru sahibine epost olarak gönderilir ve başvuru sahibi tarafından çıktısı alındıktan sonra havalimanına götürülebilir. Sağlık durumu beyannamesinin geçerlilik süresi dahilinde uçuş yapmaya dikkat edilmeli ve uçuş gerçekleşmeden önce hava yolu tarafından gerçekleştirilecek kontrol işlemlerine uyum sağlanmalıdır.

(1) Çin Halk Cumhuriyeti Ankara Büyükelçiliği mail adresi : consulate_tur@mfa.gov.cn

(2) Çin Halk Cumhuriyeti İstanbul Başkonsolosluğu mail adresi : consulate_ist@sina.com

E-mail başlığı "HSJC-pasaport no" şeklinde olmalıdır

5. Hatırlatma

a. Çin'e uçuş gerçekleştirecek olan yolcular bu duyuruyu dikkatle okumalıdır. Nükleik asit testinin zamanında yaptırılmaması, negatif test sonucu alınmaması, uçuş gerçekleşmeden önce 'HS' logolu yeşil sağlık kodu ya da geçerli sağlık durumu beyannamesine sahip olunmaması durumları uçağa alınma şartlarına uygun bulunmadığının göstergesi olup bu durum seyahat programlarının yeniden ayarlanmasını gerektirecektir.

b. Negatif sonuçlu Covid19 nükleik asit testi belgesi ile uçağa alınma uygulamasına geçen ülkeler

([https://hr.cs.mfa.gov.cn/help_two/help-](https://hr.cs.mfa.gov.cn/help_two/help-two/gj.html)

[two/gj.html](https://hr.cs.mfa.gov.cn/help_two/gj.html)) üzerinden aktarma yaparak Çin'e gidecek Çin ve yabancı uyruklu

yolcular için aktarma sırasında aynı şekilde havayolu tarafından 'HS' logolu yeşil sağlık kodu ya da sağlık durumu beyannamesi kontrolleri gerçekleştirilecektir. Aktarma esnasında sağlık kodu ya da sağlık durumu beyannamesinin geçerli olduğundan emin olunmalıdır. Aksi bir durum aktarma esnasında yolcunun uçağa alınmamasına ve alanda kalınmasına sebebiyet teşkil edebilir.

c. Türkiye'de bulunan Çin Büyükelçiliği ve Başkonsolosluğu yabancı uyruklu şahıslara yönelik sağlık durumu beyannamesinin yalnızca uçağa binış sırasında kontrol amaçlı kullanılacağını Çin'e giriş belgesi olarak kullanılamayacağını hatırlatır. Programa uygun bir şekilde Çin vizesinin olması ya da vizesiz olarak Çin'e giriş yapılabileceğinden emin olunması gerekmektedir.

**Joint Announcement of the Civil Aviation Administration of China, the General Administration
of Customs of China and the Ministry of Foreign Affairs on Requiring China bound Passengers
to Obtain COVID19 Negative Certificates Before Boarding**

4th Aug 2020

To ensure the health and safety of international travel and to reduce the risk of crossborder spread of the epidemic, passengers who are to fly to China are required to obtain COVID19 negative certificates before boarding. The following arrangements are hereby announced:

- I. Chinese and foreign passengers who are to fly to China are required to take nucleic acid tests for COVID19 within five days before boarding. The tests should be taken at institutions designated or recognized by Chinese embassies or consulates.
- II. Chinese passengers are required to upload photos of their COVID19 negative certificates to the Wechat mini program COVID19 Prevention Health Code International Version.
- III. Foreign passengers are required to present scanned identity information page of their Passports, COVID19 negative certificates and signed Health Declaration Forms to Chinese embassy(consulate_tur@mfa.gov.cn) or consulate(consulate_ist@sina.com) when applying for Health Declaration Forms.
- IV. Airlines are responsible for checking the health codes or Health Declaration Form of their passengers before they board the plan. Passengers who do not meet the above requirements should not be allowed on board. Airlines should strictly follow the relevant procedures.
- V. Passengers who provide false certificates or information shall bear corresponding legal liabilities.
- VI. Chinese embassies will carefully evaluate the nucleic acid testing capabilities of host countries and issue specific implementation measures when conditions are met.

Notice on Airline Boarding Requirement for Certificate of Negative Result of Nucleic Acid Tests for Covid-19

2020/08/14

In accordance with the announcement of the Civil Aviation Administration of China, the General Administration of Customs of China and the Ministry of Foreign Affairs, passenger who is to fly from the UK to China will be required to take a nucleic acid test for COVID-19 and apply for certified Health Declaration Form starting from 21 August 2020. The following procedures are for your reference:

1. Starting from 21 August 2020, passenger who is to fly to China from the UK, directly or indirectly, will be required to take a nucleic acid test for COVID-19 within five days before boarding. At this stage, the Chinese Embassy does not designate specific institutions to carry out the test. Passenger can choose any hospital or institution to take the test.

2. Passenger shall fill in and sign the Health Declaration Form (please see the attachment) and send a scanned copy of the signed Form, together with the Nucleic Acid Test Certificate (with negative result), and a photocopy of the bio-page of the passport to the Chinese Embassy or Consulates at the following email addresses:

Chinese Embassy: testreportuk@gmail.com

Chinese Consulate General in Manchester:

health_man@outlook.com

Chinese Consulate General in Edinburgh:lsxz_edi@163.com

Chinese Consulate General in Belfast:chinacnbft@gmail.com

To speed up the process, please use "HS+Passenger name+Date of Departure" as subject line of your email, e.g. "HS+John Smith+Aug 12, 2020".

3. Certified Health Declaration Form with a validity period of 5 days starting from the date of issue of the Nucleic Acid Test Certificate (with negative result) shall be issued by the Chinese Embassy or the Consulates and sent back to the passenger by email.

4. Passenger shall be required to present the print-out certified Health Declaration Form within the validity period during check-in or before boarding the flight and cooperate with airlines staff during the inspection. Please be noted that passenger with expired Health Declaration Form will not be allowed to board the plane and will be required to take nucleic acid tests and apply for the Health Declaration Form again.

5. Passenger is advised to bring the Nucleic Acid Test Certificate (with negative result) to the airport in case of the need for further inspection.

6. Please also be noted that a certified Health Declaration Form is not an alternative to a Chinese visa.

关于在乌克兰实施赴华乘客凭新冠病毒核酸检测阴性证明登机的通知

2020/09/07

为确保国际旅行健康安全，降低疫情跨境传播风险，从2020年9月14日零时起，**所有中外籍旅客**从乌克兰出发赴华必须于**登机前72小时**在使领馆指定机构进行核酸检测，具体要求如下：

1、中国公民凭有效健康码乘机。中国公民应在获得核酸检测阴性证明24小时内，通过防疫健康码国际版小程序上传至系统；使馆复核通过后，当事人可获得带“HS”标识的绿色健康码。

2、外国公民凭有效健康状况声明书乘机。外国公民应在获得核酸检测阴性证明24小时内于工作日17：00前，将核酸检测阴性证明、护照信息页、填好的健康状况声明书、有效签证、机票的**彩色扫描件（不是照片且单个文件不能超过5兆）**发送至hsjckr@gmail.com；使馆审核通过后，以电邮方式将加盖使馆印章的健康状况声明书扫描件发还给申请人。

3、核酸检测阴性证明**必须是英文**且清晰可见，**检测人姓名、性别、年龄必须与乘机人吻合**，否则将不被通过，由此导致的误机、滞留等一切后果均由乘机人自负。

4、乘机人务必确保在乌克兰登机及第三国中转时健康码及健康状况声明书处于有效期状态；建议申请人携带核酸检测阴性证明原件，以备航空公司查验。

5、所有乘客务必严格遵守相关防疫规定，提供真实有效的核酸检测阴性证明，入境后自费隔离14天；伪造核酸检测阴性证明、不遵守防疫要求将承担相应法律责任。

6、指定检测机构如下。

1、Медицинская лаборатория МЕДЛАБ 基辅（系统内对应为MEDLAB）

网址<https://medlabtest.ua>；联系方式 (096) 848-87-78, (073) 284-87-78

2、Медицинская лаборатория CSD-LAB 基辅（系统内对应为CSDLAB）

网址<https://www.csdlab.ua/>；联系方式0-800-33-00-75

取样地址为：улица Жмеринская 22Б

3、Артмедиуз 敖德萨（系统内对应为ARTMED）

网址<https://artmediuz.od.ua/>；联系方式 (048) 704-93-95, (068) 147-49-52

4、ООО Медицинский центр имени академика В.И. Грищенко 哈尔科夫（系统内对应为ACAGRK）

联系方式(067)-824-0101, (057)-712-0101, (050)-393-0101

建议当事人提前联系上述机构，确定取样时间与地点。
